Why Park & Ride?

Park & Ride is the best of both worlds:

- allowing those who need to use a car the chance to leave it at an Interchange location and link to public transport.
- avoiding the stresses and strains of fighting urban traffic congestion.
- helping to sustain the environment by using public transport and reducing carbon emissions.

Parking at a Park & Ride site:

- is cost effective - comparing favourably with the cost of parking within towns and city centres.
- has direct links with bus, train or tram facilities.
