

# Kiosks

The Smart Kiosk provides the travelling public with free access to a range of real time and interactive digital travel services which make it easy to use public transport. They are located within all our Interchanges and at several outside locations.

Smart Kiosk at Mexborough Mini Interchange

Smart Kiosk at Sheffield Interchange

Plan a journey button allows you to view travel planning options

Main screen  
Other buttons allow you to use the kiosks interactive services

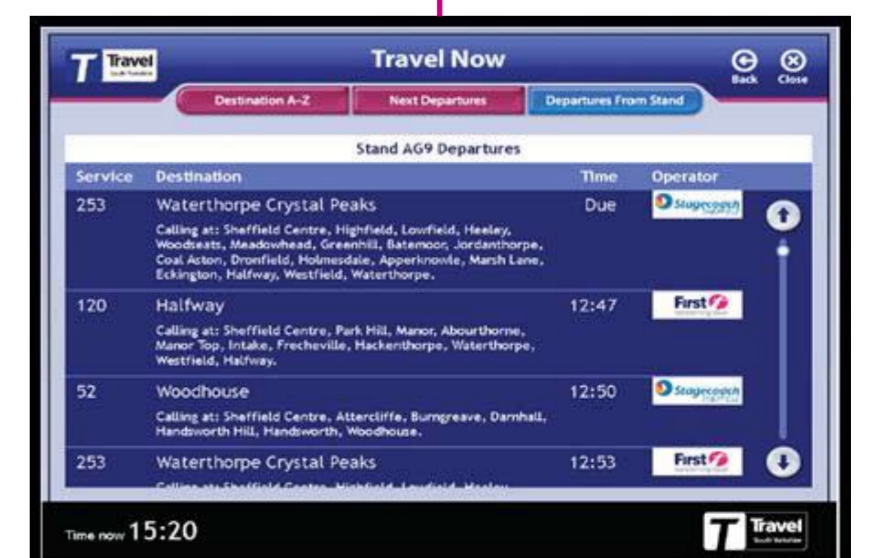

## Destination A - Z

From the keyboard display select the first letter of the destination you require information on.

## Next Departures

Shows you the next departures due from that location.

## Departures from Stand

Shows each service from the selected stand and the areas it travels through.
