Why Park & Ride?

Park & Ride is the best of both worlds:

- allowing those who need to use a car the chance to leave it at an interchange location and link to public transport.
- avoiding the stresses and strains of fighting urban traffic congestion.
- helping to sustain the environment by using public transport and reducing carbon emissions.

Parking at a Park & Ride site:

- is cost effective - comparing favourably with the cost of parking within towns and city centres.
- has direct links with bus, train or tram facilities.

Did you know?

Doncaster has dedicated Park & Ride sites linking to public transport during the Christmas period. Look out for information on these sites during November and December.
