

Locating the Bus Stop Number

The bus stop number can be found on the bus stop flag, on the side of a bus shelter and on the bottom of the timetable information. The stop number will always start with 370.

here is an example: 37035043

Bus Service Number

If you are using the internet or WAP on your mobile you can search for the specific bus service that you require; once this service has been found you can choose the stop along it's route that you want the real-time information for.

Postcode

If you are using the internet you can enter a postcode and you will be able to view all the stops round the entered postcode and choose the correct one; your results can even be viewed on a map making it easier for you to navigate and find the correct stop

If you want further information on using the **YourNextBus** service visit our Frequently Asked Questions section.
